Division of Engineers and Geoscientists in the Resource Sector

## **\$2,000** BURSARY 2010

The Division of Engineers and Geoscientists in the Resource Sector (DEGIRS) is pleased to offer a \$2000 aimed at advancing engineering and geosciences education and practices in BC. The bursary is intended to provide financial assistance to students in an accredited post-secondary or post-graduate program at a degree-granting institute in BC. Studies should relate directly to professional engineering and/or geoscience/geotechnique in the resource sector.

### **Eligibility:**

- i) Applicants must be enrolled in at least the third year of an undergraduate program or any year of a post-graduate program directly related to the practice of engineering and/or geoscience/geotechnique in the resource sector, and lead to membership in the Association of Professional Engineers and Geoscientists of British Columbia;
- ii) All applicants shall demonstrate above average grades.

### **Applicants to submit:**

- i) A covering letter describing the applicant's area of study and their career goals. The letter should include a permanent contact address, phone number (s), and e-mail address. ;
- ii) An official copy of their transcripts showing grades and an accompanying list of current courses and/or program of study
- iii) An essay, no more than 5 pages, including figures and diagrams, on any topic related to engineering and/or geoscience/geotechnique in the resource sector. Any submitted papers or essays may be published in ASPECT, the newsletter, at the discretion of the DEGIRS Executive. Applicants must provide an electronic copy of the paper, preferably in MS Word, with the submission.

**Digital submissions can be forwarded by email to David Campbell, Bursary Coordinator ([david\\_ac@hotmail.com](mailto:david_ac@hotmail.com)). Transcripts and hard-copy submissions should be submitted to the DEGIRS Bursary Sub-committee, c/o APEGBC, 200 – 4010 Regent St., Burnaby, BC, V5C 6N2.**

**The deadline for receipt of applications is: JUNE 30, 2010.**

**Evaluation of Applicants:** The relevancy of the applicant's field as study to engineering and/or geoscience/geotechnique in the resource sector; the applicant's career goals; the applicant's grades; the submitted paper which shall be reviewed for content, relevance to engineering of geoscience in the resource sector, organization, clarity and references. Applicants are advised to provide complete submissions based on the foregoing criteria.

**Award:** The bursary, in the amount of \$2000, shall be awarded to the successful student by approximately mid-August, 2010. DEGIRS reserves the right not to award the bursary if a suitable candidate is not found. A successful applicant from the immediately preceding year will not be considered. Prior to award, the selected candidate shall provide confirmation of current registration to the DEGIRS Bursary Sub-Committee.
